

Afterwood

Biomass fuel and wood pellets

Afterwood Boiler Servicing

To keep a boiler running smoothly, extend its lifespan and ensure that you continue to receive RHI payments we would recommend boilers are fully serviced a minimum of once per year. Servicing is an important part of maintaining your system. It keeps your installation safe and reliable, maximises efficiencies and RHI returns.

What is covered in your service

Afterwood now offer biomass boiler service which consist of:

- . Cleaning out boiler
- . Cleaning out hopper if empty
- . Carrying out checks as per manufacturer's instructions
- . Checking operational performance
- . Rates for boilers within a 50 mile radius of NG23 7DG

Pellet boilers up to 300kw - £250+VAT

Chip boilers up to 300kw - £375+VAT

Please call us on 01522 703647 for a price for boiler services outside the 50 mile radius.

Afterwood are also pleased to offer a monitoring and data system. This allows the customer and also Afterwood to monitor fuel levels more accurately and observe boiler performance. This enables us to review how we can improve the efficiency of your biomass system.
